

## MIDCENTURY MODERN ARCHITECTURE: OUTSTATE MINNESOTA

**Note:** This list of midcentury buildings and places (ca. 1945-ca. 1970) which also includes a few earlier Art Moderne-style structures, was prepared as part of the research for my book, *Minnesota Modern: Architecture and Life at Midcentury* (University of Minnesota Press, Fall 2015). Entries are organized under cities, building type, and then by street address. Most entries also contain the abbreviated names of sources where photos and/or additional information can be found. – Larry Millett
